Art Unit: 2829

1. Applicants' Amendment filed March 4, 2003 has necessitated grounds for restriction as follows:

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 31-42, 54-65 and 67-70, drawn to apparatus, classified in class 324, subclass 765.
- II. Claims 66, 71 and 72, drawn to apparatus, classified in class 324, subclass 765.

3. The inventions are distinct, each from the other because:

Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination can be practiced with an apex made of a material other than semiconductor material. The subcombination has separate utility such as by itself or in other combinations that require either a penetration stop plane and/or an apex positioned to extend elevationally, above a surface of the substrate.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. A telephone call was made to the Office of the Attorney of Record on May 21, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

7. Of further note, claim 71 contains a claimed feature, "a substrate," that is redundant within the claimed limitations (see lines 4 and 5).

8. A shortened statutory period for response to this action is set to expire one month(s) from the date of this letter. Failure to respond within the period for response will cause the application to become abandoned. 35 U.S.C. 133
